Date: August 19, 2020

Re: Press Release- COVID-19 – Update

The Town of Casco continues to make decisions that we believe are in the best interest for the community while taking into account the latest information, guidance, and mandates from state and federal authorities related to the COVID-19 pandemic.

Our goal remains to ensure the safety of our employees and residents in the most responsible ways possible. We apologize for the inconveniences that these measures have and will cause.

Effective immediately, the Town Office is open to the public, no appointment necessary. There is a limit of two customers inside the building at a time. Face masks are mandatory and we ask everyone to practice physical distancing. Those who do not wish to wear a face mask will not be allowed inside the building and instead will be helped via phone, mail, drop box and/or email.

We appreciate everyone's patience as we continue to navigate the steps laid out by state and federal officials and work to keep everyone safe.

The **Community Center** building remains closed to the public except for municipal purposes. This is likely to change as we determine the next best steps for the fall. We encourage residents to keep abreast of current events by visiting our website at www.cascomaine.org – all notices related to COVID are found on the homepage -- or by checking the Town's Facebook page at www.facebook.com/townofcascomaine .

We strongly encourage residents to practice social distancing and follow all other guidelines provided by the CDC and State of Maine. The more steps taken by individuals to limit exposure, the better for everyone is. If you have recently traveled/entered Maine, please self-quarantine for 14 days to ensure you are not contributing to the spread of COVID-19.

For more information on Coronavirus (COVID-19), please visit the U.S. CDC's website, which can be found at www.cdc.gov/coronavirus.
